#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

This action is responsive to applicant's amendment/remarks filed 10/23/08. Claims 1-4 and 6-9 are currently pending.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-4 and 6-9 are rejected under 35 U.S.C. 103(a) as obvious over JP 2002-290094.

This rejection is maintained for the reasons set forth in the Rejection mailed 06/23/08 (pages 3-4).

Claims 1-4 and 6-9 are rejected under 35 U.S.C. 103(a) as obvious over Patel et al (6,528,572).

This rejection is maintained for the reasons set forth in the Rejection mailed 06/23/08 (pages 4-5).

Claims 1-4 and 6-9 are rejected under 35 U.S.C. 103(a) as obvious over LeGrande et al (2004/0028859).

This rejection is maintained for the reasons set forth in the Rejection mailed 06/23/08 (pages 5-6).

Applicant's remarks regarding these rejections have been fully considered.

Initially, note that the pending rejections have been maintained under 35 U.S.C. 103 only. The examiner agrees that the references do not specify the claimed limitations regarding FR-IR spectroscopy. However, the examiner respectfully submits that such would have been obvious to the skilled artisan as only

Art Unit: 1796

routine testing would be necessary to select carbon nanotube materials suitable for use in accordance with the claims. In fact, from the description at page 5 of the instant specification, it appears the claimed nanotubes may be made by any of several known general methods including CVD, arc discharge plasma, and ion impact. Additionally, while applicant alludes to post-treatment techniques (refinement), it appears none are necessary to meet the claimed limitations (page 5 specification). Also, while applicant states that the claimed nanotubes result in improved shielding (page 6 of specification), there is not comparative data showing any improved results.

In view of the foregoing, the above claims have failed to patentably distinguish over the applied art.

The remaining references listed on forms 892 and 1449 have been reviewed by the examiner and are considered to be cumulative to or less material than the prior art references relied upon in the rejection above.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS

Art Unit: 1796

of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Kopec whose telephone number is (571) 272-1319. The examiner can normally be reached on Monday - Friday from 9:30 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on (571) 272-1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
